RING SIZE CHART

Choose from three accurate measuring techniques below. For accuracy, please ensure that this PDF is printed at 100%.

Print the chart of ring size circles. Find a ring that you or your loved one currently wears, and place the ring on top of each circle until you find a perfect match. The match should perfectly fit the inside on the ring.

BRACELET SIZE CHART

UNITY, PEBBLE & STITCH BRACELETS

Using a flexible measuring tape, measure the circumference of your wrist just above the wrist bone (toward the elbow).

If you do not have a flexible tape use a strip of paper or piece of ribbon, then measure that piece with a ruler.

Make a note of the number at the point where the measuring tape meets the 0.

Compare your measurement to the sizes below, which correspond to the circumference of your wrist in inches, and choose the corresponding bracelet size.

Available sizes in

5 ¹ / ₈ – 5 ¹ / ₂	5 ⁵ / ₈ – 6	6 ¹ / ₈ – 6 ¹ / ₂	6 ⁵ / ₈ – 7	7 ¹ / ₈ – 7 ¹ / ₂
---	-----------------------------------	---	-----------------------------------	---

If your bracelet or cuff appears to be between two sizes, we suggest you choose the larger size.
